## **55DSL – SPRING/SUMMER 2011 EYEWEAR COLLECTION**

The new 55DSL sunglasses collection for the coming season expresses a vintage mood interpreted in modern way with surprising colour effects, strong design features and original finishes. The new eyewear proposals attract with their urban appeal, their strong details interpreted with a fashion twist and with a range of high-impacting shades, amid psychedelic effects and speckled colours to really grab attention.

Timeless, easy and glamorous, this women's sunglass seduces with its large butterfly shape and Eighties vocation (mod. **RICKY DEAN**). The sunglasses will certainly not go unnoticed and will stand out due to their irresistible "camouflage" colours that include green/cyclamen and red/green with a multi-layered effect, dark red/white/cyclamen, blue/orange, dark red/white/light blue and black/white.

With a winning mix of a metropolitan and street style, these injected sunglasses feature a rectangular and wrap-around shape with temples that include the metal angel symbol (mod. **STEF-MATT**). The colour range presents an impacting version in black with multi-coloured marks in perfect graffiti-art style, as well as matte black, petrol and blue single colour tones.

The sunglasses that feature either injected or metal frames stem from a rock-oriented inspiration and a combination of Eighties style and a glamorous spirit (mod. **WEIR-D**). The mood is decidedly graphic with the temples highlighted by geometric lines and the logo sculpted in an alternation of high reliefs and bas-reliefs in contrasting colours of rosé gold/Havana, palladium/white, glossy black/matte black and ruthenium/brown.

The 55DSL sunglasses collection is manufactured and distributed by the Safilo Group.
